# Assembly Steps

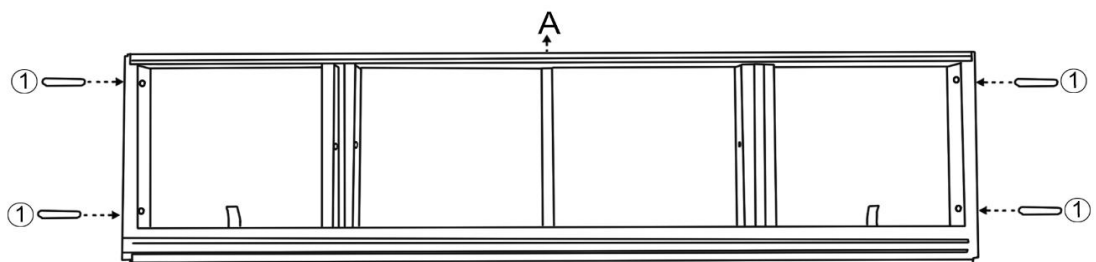

## Overview

Front Facing

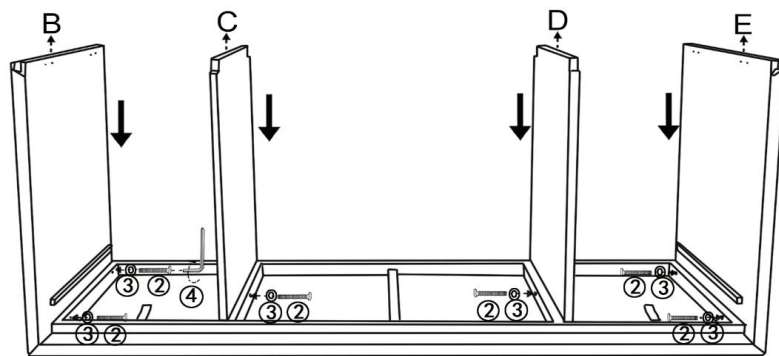

This Cabinet has multiple parts and may require up to 50 minutes to assemble. To give you an overview of the cabinet parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

### Step 1

Install the Wooden Tenons(①) into the sides of the Top Panel (A) as pictured above.

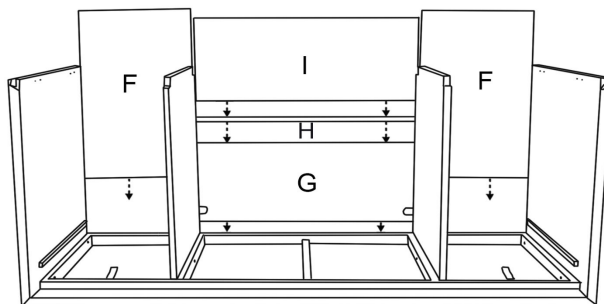

## Step 2

Attach the right side board(B), left side board(E), left clapboard (D) and right clapboard (C) to the top panel(A), use long bolt(②)and flat washer(③) align with board hole position,Allen wrench (④) is used to assist rotation tightening.

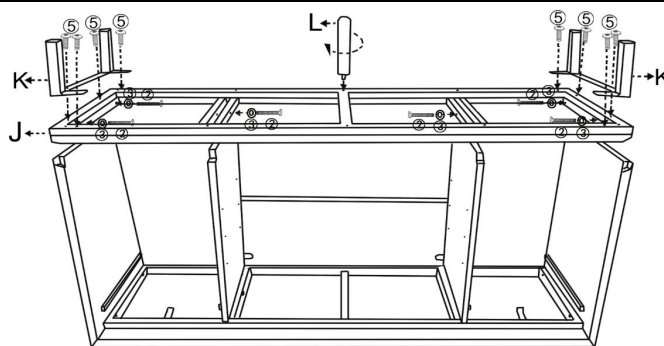

ATTENTION: One groove side of board must be stay in one side(backside); The short distance from the edge to the hole is upside for left clapboard (D) and right clapboard (C)

## Step 3

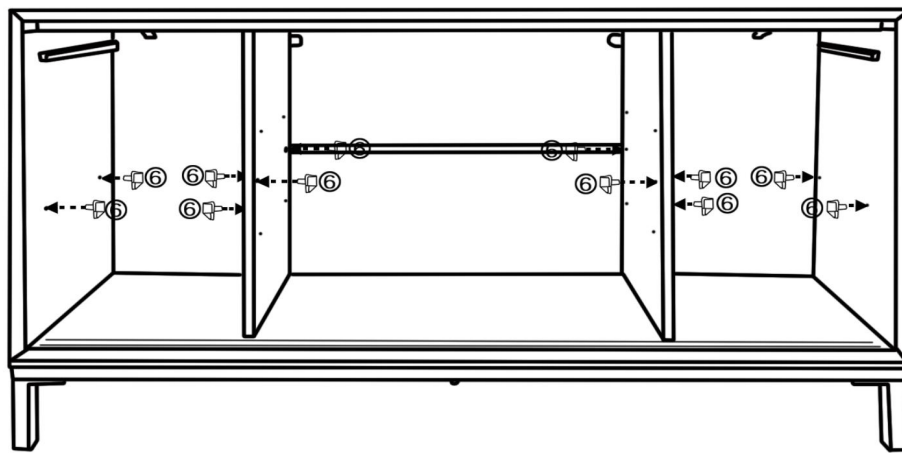

Insert the back board(F), the top back board of the middle(G), slot(H) and the bottom back board of the middle(I) into the grooves.

## Step 4

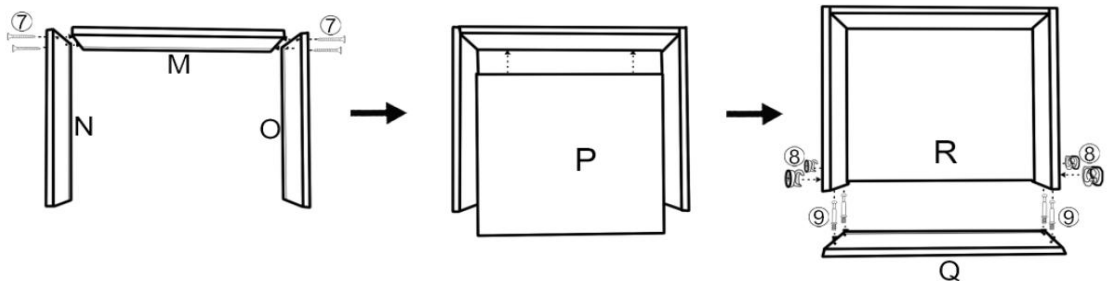

Install the bottom panel(J) as the above picture, use long bolt(②)and flat washer(③) align with board hole position to fix the bottom panel(J); Connect the iron foot(K) with the bottom panel(J) by short bolt(⑤); Insert the middle foot(L) and rotate it to tighten it.

### Step 5

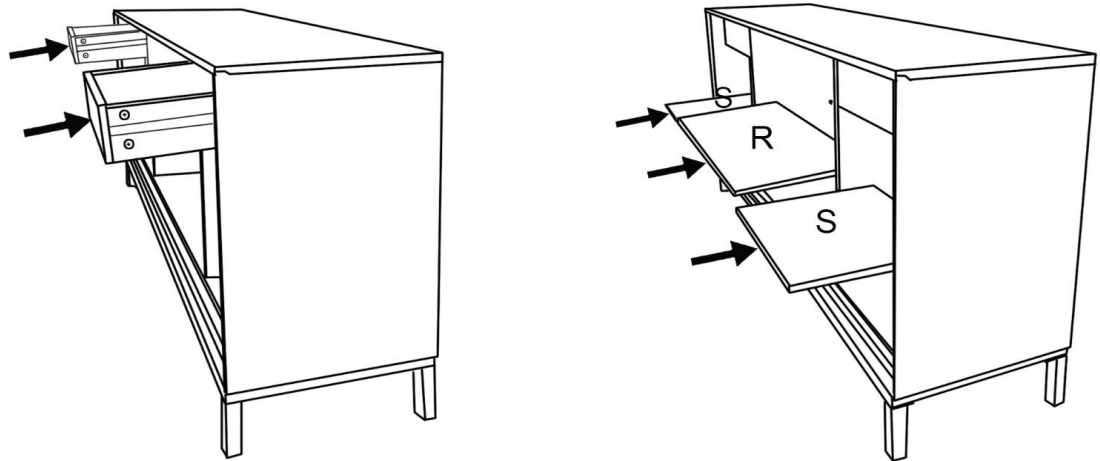

Stand the mounted cabinet up, and insert shelf support pin(⑥) into each panel hole.

### Step 6

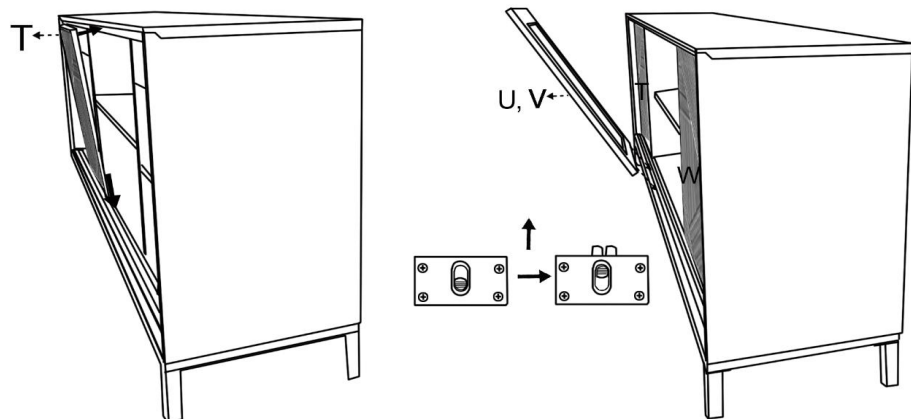

Install the drawer. First, connect the back board of the drawer(M) with the left side board of the drawer(N) and the right side board of the drawer(O) by screw(⑦); Second, Insert the bottom panel of the drawer (P) into the groove of the bottom of three boards; Third, connect the front panel of the drawer(Q) with the left side board of the drawer(N) and the right side board of the drawer(O) by cam bolt(⑨) and cam nut(⑧), then tighten cam nut(⑧).

### Step 7

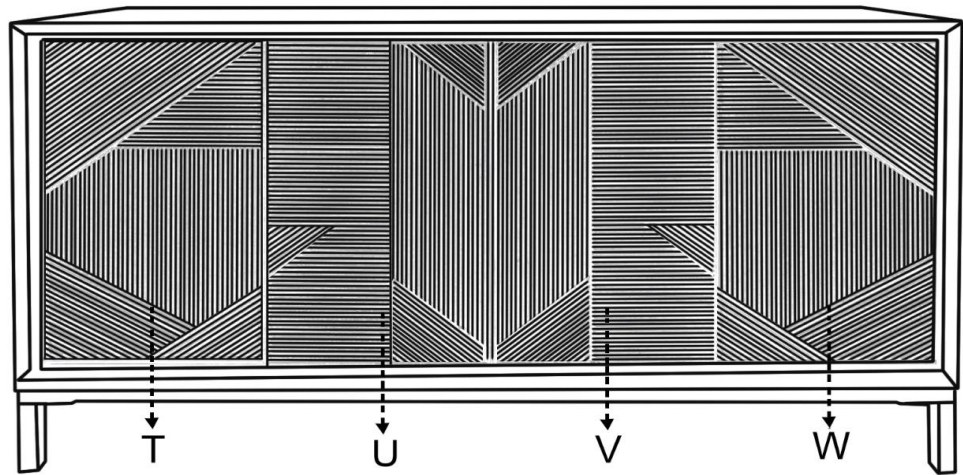

Insert the mounted drawer into the cabinet body as the picture; Put the middle shelf board(R) and shelf board of the side on the shelf support pin(⑥ ).

### Step 8

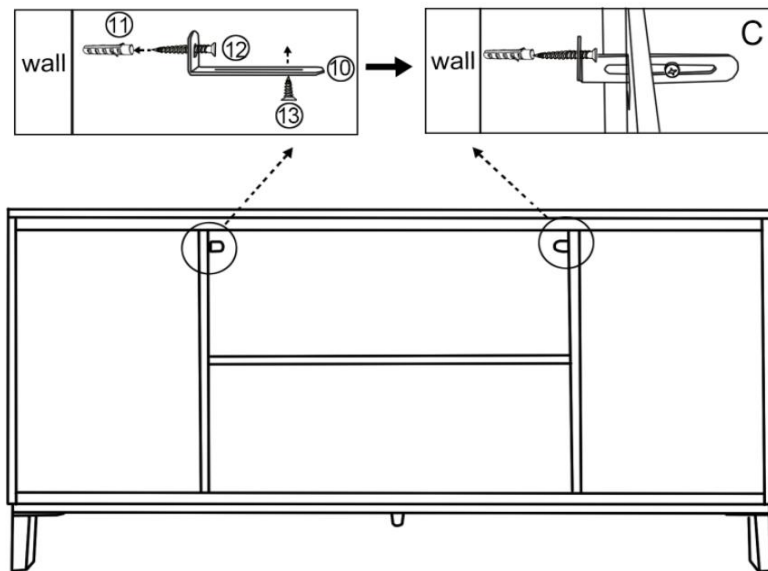

Insert the wheel of left door (T) into the inside groove of the bottom panel(J) and insert top of left door(T) into the inside groove of the top pannel(A), then press the button of the top as the picture; Use the same way to install the right door (W); Insert the wheel of middle door 1(U) into the outside groove of the bottom panel(J) and insert top of middle door 1(U) into the outside groove of the top panel (A), then press the button of the top as the picture. Use the same way to install the middle door 2(V).

### Step 9

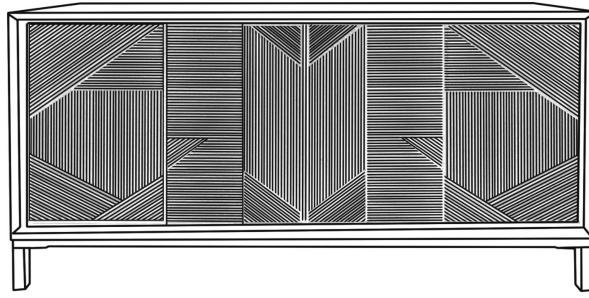

The mounted door is as the picture order.

### Step 10

Align with the pre-drilled hole on top back board of the middle(G), screw the expansion screw (11) in to the wall. Install the short side of Anti-Tipping sheet iron( 10) on the wall with screw( 12), then using the long side of Anti-tipping sheet iron ( 10) connected to the inside of left clapboard (D) and right clapboard (C) by srew( 13)

### Step 11

The sideboard is ready for use.  
This cabinet can only be used on a flat and level surface.
