Assemble Armrest Cushion Connect the power cord

1: Align the snaps of the armrest cushion with the armrest frame, and push the cushion from the front to the back.

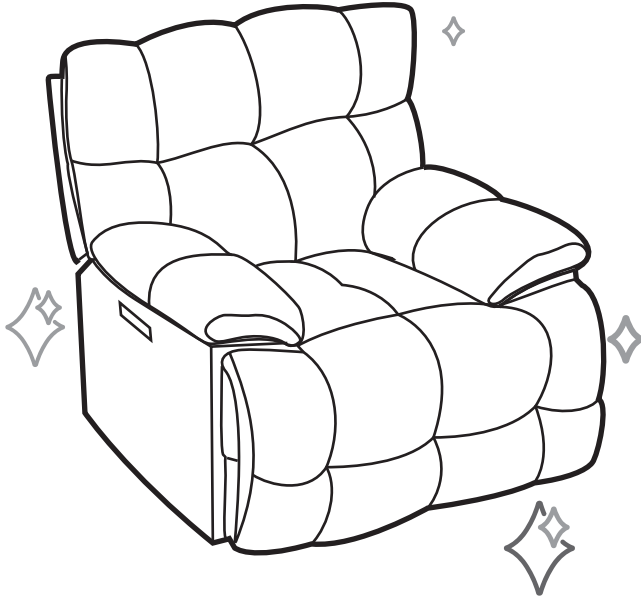

2: Attach the Velcro of the armrest cushion to the Seat Frame.

Assemble The Backrest

Align the tabs on the backrest with the tabs on the base, and then insert the backrest downward. When you hear a click, the insertion is complete.

“Ta-da!”

Arrange The Recliner

When the recliner is freshly unpacked, it may have some deformations due to compression. You can promote its shape recovery by patting and tapping it with your hands.
